The following is an examiner's statement of reasons for allowance: The art of record, Vanderhoff et al (US 5,830,927), teaches printing inks having 5-25 wt.% of pigment at col. 9, lines 1-4. The use of the instant polymer is taught in table 1 wherein aqueous pigment pastes (pigment\grinding vehicle), used in the printing inks, having 18.2 to 46 wt.% of pigment are seen. The examiner does not see any motivation to use more than 50 wt.% of effect pigment in said aqueous pigment pastes since the final printing inks have 5-25 wt.% of pigment and since Vanderhoff et al do not suggest the use of effect pigments and since grinding would destroy the flaky nature of said effect pigments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae H. Yoon whose telephone number is (571) 272-1128. The examiner can normally be reached on Mon-Thu.
